

DRAGONFLY COPTER TOY

This flying toy has origins in China and was often made from bamboo. This paper version works well and you can make it in just a few minutes.

Tools and Materials:

- White cover weight 8 1/2" x 11" paper
- Coloring tools
- Transparent tape
- Scissors
- Hole punch
- Plastic drinking straw (no-bend best)

STEPS:

1. Print out or copy PDF template
2. Cut the individual copters and color in design
3. Punch a hole where marked in the center
4. Thread on to top of straw and secure with tape
5. To play with copter, stand with straw of toy between your palms. Give it quick spinning rubs back and forth and release to see it fly
